- 1.2 Each pedigree will prominently carry the name of the country the breeder resides in together with the inscription: "*Issued under the auspices of the German Shepherd Dog Federation of South Africa*".
- 1.3 Special regulations may be promulgated under this schedule for specific countries.
- 1.4 Only dogs that are identifiable and with parents already registered by a recognized registering authority will be eligible for registration.

2 Recognition of Pedigrees

- 2.1 All pedigrees issued under this schedule will carry the statement "*Conforms to the minimum requirements for recognition by all WUSV organizations*" in addition to the WUSV logo and will be recognized by all WUSV organizations world-wide.

- 4.2 It is acknowledged that there are many WUSV organizations that do not have minimum requirements of any kind and that minimum requirements in such countries have to be implemented step-by-step.
- 4.3 Where pedigrees are issued that do not comply with the minimum standards of the Federation, the Federation may not allow such dogs to breed within the Federation itself unless specifically authorized thereto by the National Breed Committee.
- 4.4 As far as is possible, the Federation will provide the same services to breeders breeding under this schedule as it provides its own resident members and endorse the pedigrees issued under this schedule with qualifications and gradings (e.g. Hip Dysplasia and DNA) accordingly.
- 4.5 As an initial step, the Federation will try to ensure that all dogs in respect of which pedigrees are issued, will be identifiable according to a Federation recognised identification system. Where no suitable persons have been trained, the services of approved Veterinary professionals in the countries concerned will be utilized to identify the dogs.
- 4.6 Dogs bred under this schedule and which conform all to the minimum requirements of the Federation will be fully accepted for breeding within the Federation and have their pedigrees endorsed accordingly.

In such cases the second person present must be provided with a list of disqualifying faults and certify that the animal concerned was free of such faults.
- 5.2 Gradings issued in terms of 5.1 shall be recognized by the Federation as the acceptable minimum grading of the parents of a dog in the pedigree. The Federation will however require a grading given by a judge recognized by the Federation to the dog itself, before the dog may be bred from in the Federation.
- 5.3 Federation judges may travel to any country qualifying in terms of this schedule and allocate gradings on an individual basis up to "V" (Excellent). Where such gradings are issued, a report thereof together with a full description of each dog concerned must be forwarded to the Federation by the judge concerned.
- 5.4 Suitable individuals in the African countries concerned may be trained as tattooists under the auspices of the National Administrator. Where it is unavoidable that such an individual may have to provide a dog belonging to him or herself with recognised identification, the action must take place in the presence of a veterinary professional or another individual identified as appropriate by the National Administrator, who must countersign the report.
