

Procedures for Teeth certification and/or – endorsement

1. Certification

Teeth can be certified at any Breed Show or – Survey by any active Breed Surveyor, who must certify that the dog had been identified by means of checking the tattoo number or microchip number. *Pro forma* forms will be made available at all Shows and Surveys.

Breed Surveyed dogs are regarded as having had their teeth certified as per the Survey document.

Findings must be noted on the pedigree (preferably) or TTR Book as follows:

- Dentition complete and correct
- or
- Teeth faults: (.....), other correct.

Certifications must be signed and dated by the surveyor with name in block letters

It is the judge's responsibility to notify the Federation Office of certifications done.

All teeth faults will be noted on the dog's record.

2. Endorsement

2.1 Removal of teeth and/or Dental procedures

The Veterinarian must notify the Federation Office immediately when a tooth had been removed on the prescribed form.

In all instances the veterinarian must certify that the dog had been identified by means checking the tattoo number or microchip number.

This form, along with the original pedigree and the prescribed fee for endorsements, must be sent to the Federation Office within 14 days of the procedure.

All procedures will be noted on the dog's record.

2.2 Referral to Dental Specialists

The veterinarian must provide the original disk / X-ray to the Federation Office along with the prescribed form.

The veterinarian must certify that the dog had been identified by means checking the tattoo number or microchip number.

The disk / X-ray will be referred to an approved Specialist by the Federation Office as soon as payment for the service has been received.

Members will not have the right to insist on a specific specialist. Referrals will be done strictly according to cost effectiveness and availability of specialists.

Specialist findings will be sent to the Federation Office who will notify the member.

Findings of specialists relating to dogs brought directly by the owner will only be accepted if provided by the specialist. **No findings submitted by members will be accepted.**

All findings by Dental Specialists will be noted on the dog's record.

Form accompanying report from Specialist
